TALK TO THE HEEL

BALL-OF-FOOT
94002

Slipping into new stilettos? Does the shoe fit but you still feel pain or discomfort? To ease away the pain in the ball-of-foot area, place these thin and comfy cushions in your shoes for comfort and support... Unlike most cushions, ours are made with Poron, a patented foam that is very thin but very cushy. This means that the cushions will not make your shoes too tight, which is the problem with most cushions.

BALL-OF-FOOT cushion pads, great no matter the body shape!

Our shoulder pads stick securely on the end of the shoulder, creating a wider profile without adding height.

They are perfect for defining a triangle shape silhouette. They can be used with any dress or blouse. The fashion "style goal" here is to add a sophisticated touch to your look. By wearing *On The Edge* shoulder pads one can add volume to their shoulders creating a stunning silhouette.

BRAZA BOOTY BEAUTY™

1030

If your clients' anatomy doesn't include a beautifully well-rounded butt, suggest *Booty Beauty*, a one piece molded panty without tell-tale seams. She will be transformed into a sexy, *bootylicious* gal!

The fashion "style goal" is to add curves to her bottom for balance between the upper and lower body.

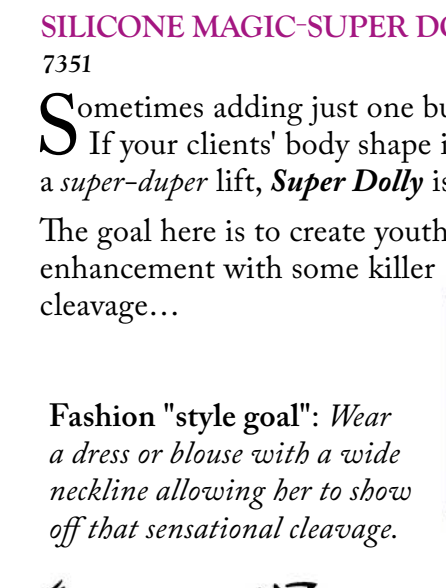

BRAZA SILICONE MAGIC-PERKI

7750

If your goal is to create an inverted triangle shape then add a little "push" in the bust area.

The fashion "style goal" is to add the overall inverted triangle effect by boosting your bust, so as not to look and feel flat like a couple of english muffins.

BRAZA SILICONE MAGIC-SUPER DOLLY

7351

Sometimes adding just one bust size isn't enough. If your clients' body shape is round and needs a *super-duper* lift, *Super Dolly* is the answer!
